Add Comment, new wp plugin comment luv premium

Why would you add a comment on any other blog? What benefits it will give you?

Adding comments of other blogs become one of the best links building strategies for any webmaster to get high page rank backlinks to their blogs and web pages.

One very popular wp plugin was used to make it easy and more effective for users to comment and get good anchor text backlinks to their blogs and web pages with the do follow attribute. It's the comment luv wp plugin.

If you have used the comment luv you already know the power of this plugin, it's simple connect all the plugin users to help each other get the most from their blogs and commenting.

When you add a comment, you are not only getting a backlink, but also helping the blog post you are commenting on to get higher ranking and higher popularity on the search engines. It's a win win situation for you as a commenter and for the blogger.

With comment luv, you get a do-follow backlinks, your backlinks is also tagged with your anchor text and reveal your own latest post on your own blog. So it's the highest value from comments.

Today the creator of comment luv have launched a new wp plugin, that is a huge advanced features of the comment luv we already know, he called it [comment luv premium](#). This plug in have all the feature of the old one with an amazing add-ons, It have more link building values, marketing values and sociable values.

With the comment luv premium plug in you will also add a twitter follow options to your commenter, and a Google +1. So webmasters will get more value from commenting on your blog, and you will get high values from commenting on other blogs that also support comment luv premium plug in.

I already downloaded the plugin and installed it, I also heard that it will be available only for 7 days with a special price.

I highly recommend it so [go here and download](#).
