# Make Money From Home

Are you looking for way to make money online from home? Have you searched the web?

If you have did so you would find millions of results, presenting thousands of products, systems and opportunities, but you have no idea what works and what does not? Which are scams and worthless and which are legitimate and possible ways?

I am working online for some time promoting mostly [network marketing opportunities](#), my main job is to bring people to network marketing opportunities I work with; and when they join and become paid members I earn commission. Also when they start to promote their opportunities to make money by themselves I also earn more commissions.

But one simple question I have always received, how can I make money from home?

Every one of you can answer this question differently, everyone will think first of all about promoting his/her opportunity or product, and will mislead others when he answer this question.

For example: my first answer to this question was to tell them to join network marketing opportunity and start promoting it. But this answer cannot describe how to make money, how to promote the opportunity.

The only answer of this question is:

To make money online is a process that need to be understood, this process need to be right for promoting network marketing, affiliate products and/or your own product.

One simple step by step process that you can duplicate.

This process is perfectly described in this page "[make money online](#)", and if you understand this process, you then can make money online very easy, with any program, product or opportunity you are working with.
